

University of Buffalo,  
Buffalo College of Pharmacy,  
Buffalo, N. Y.

September 10, 1896.

WILLIS G. GREGORY, M.D., PH.G., DEAN & TREASURER,  
JOHN R. GRAY, M.D., PH.G., SECRETARY.

Mr. Edward Mockford,  
Batavia, N. Y.

Dear Sir:-

One of our graduates informs me that you are contemplating the study of pharmacy. This is my excuse for mailing you the new Announcement of our College, which we trust will receive your careful perusal.

You will note on page 6 the general advantages of this city. Page 13 will tell you something of the laboratory facilities we offer. Page 21 shows the actual amount of instruction given, and page 26 shows the requirements for graduation. On page 7 are shown the opportunities for additional study, either during the Regular Course or after it, while page 27 tells of the moderate expenses for instruction.

It is said "the proof of the pudding is in the eating," in accordance with which we invite you to write any of our graduates, a list of whose names and addresses begins on page 29, to inquire about our course of study.

We know we are doing as good work as any similar college in this country. Last year we had students from Maine and Oregon, who came here after a careful examination of other schools. They now say they are glad they studied in Buffalo. One of them has just written us, saying "the Maine Board of Pharmacy was easy." All Boards of Pharmacy are easy to those who are prepared.

We will be pleased to correspond with you on any subject not made sufficiently clear in the Announcement.

Very truly yours,

Willis G. Gregory  
Dean
