The University at Buffalo offers a wide range of opportunities for exciting interdisciplinary study across its academic schools including unique collaborative degree programs with the School of Pharmacy and Pharmaceutical Sciences including PharmD/JD, PharmD/MBA, PharmD/MPH, PharmD/PhD or MS combinations. Through these partnerships, interested students have the opportunity to enhance their academic and post-graduate opportunities.

**PharmD/JD**
School of Pharmacy & Pharmaceutical Sciences and Law School

**6-Year Program**
(rather than seven years traditionally required to obtain both degrees)

**Overview:**
The program integrates the skills and knowledge of pharmaceutical sciences and pharmacy practice with the legal and regulatory framework governing pharmaceutical research and development, intellectual property, and the laws and regulations that govern the broader healthcare system.

**Curriculum:**
- Year 1: First year PharmD program
- Year 2: First year JD program
- Years 3, 4, & 5: Both PharmD and JD program
- Year 6: Experiential year PharmD program

Note: the JD is awarded after the 5th year

**Prepares Students for Legal Positions in:**
- Legal Issues in Managed Care
- Law and Mental Health
- Biotechnology and Patent Law
- Biodiversity Protection
- Intellectual Property
- Criminal Enforcement of Environmental Law

**Admission Requirements Include:**
- Baccalaureate degree
- Law School Admission Test (LSAT)
- 3.0 minimum GPA after P1 year
- Application to Law School P1 year

---

**PharmD/MBA**
School of Pharmacy & Pharmaceutical Sciences and School of Management

**5-Year Program**
(rather than six years traditionally required to obtain both degrees)

**Overview:**
The program instills the business background and skills necessary to enter leadership positions that demand knowledge of health sciences management. It is the longest, most established combined degree program available to our students.

**Curriculum:**
- Year 1: First year PharmD program
- Year 2: First year MBA program
- Years 3 & 4: Both PharmD and MBA program
- Year 5: Experiential year PharmD and MBA programs

**Prepares Students for Leadership Positions in:**
- Hospital pharmacy operations
- Health care business consultation
- State and federal health regulatory agencies
- Pharmacy benefit management organizations
- Pharmaceutical manufacturing corporations and marketing
- Human resource management in health related corporations
- Retail pharmacy administration in chain drug industry
- Ownership opportunities in independent pharmacy

**Admission Requirements Include:**
- Graduate Management Admission Test (GMAT)
- 3.0 minimum GPA after P1 year
- Application to the School of Management P1 year
- Note: Baccalaureate degree is NOT required
