

The doctor of pharmacy curriculum at the UB SPPS is designed to prepare students to serve as contemporary, compassionate, creative, and scholarly pharmacy practitioners, educators, researchers, and leaders in the advancement of the pharmacy profession. The coursework is integrated with progressive patient-centered practice experiences with a focus centered on patient care. This program leads to licensure in any state provided that the graduate passes and obtains licensure in the state requested. Students are required to complete **eight elective credit hours** - these can be completed at any time during the P1-P3 years. For course descriptions, see: <http://pharmacy.buffalo.edu/academic-programs/pharmd/requirements/courses.html>

First Professional (P1) Year – Fall				First Professional (P1) Year – Spring			
Course#	Course Title	Course Coordinator	Credits	Course#	Course Title	Course Coordinator	Credits
PHC 501	Pharmaceutical Chemistry	Morris	3	PHC 530	Physical Pharmacy	Straubinger	3
